*Note: The large increase in aircraft movements in some communities for July 2004 can be attributed in large part to fire-fighting operations.

■ **9.1** The number of visitors entering the Yukon by land from January to October 2005 was 377,476 compared with 368,437 for the same time period in 2004. This represents an increase of 9,039 people, or 2.5%.

Comparing October 2005 with October 2004, the following changes occurred:

- The total number of travellers was down by 1,707, or 14.7%.
- Yukon resident travellers decreased by 479, or 16.9%.
- Other Canadian travellers decreased by 98, or 14.8%.
- U.S. travellers decreased by 1,152, or 14.5%.
- Other foreign travellers increased by 22, or 16.8%.

■ **9.2** Comparing July 2005 with July 2004, the number of aircraft movements in Yukon communities has changed as follows:

- The number of aircraft into and out of Whitehorse decreased by 165, or 5.4%.
- In Dawson City, travel by aircraft decreased by 1,035 flights, or 53.4%.
- In Old Crow, travel by aircraft was down by 2 flights, or 1.1%.
- In Watson Lake, travel by aircraft was down by 915 flights, or 47.7%.

Footnotes

1. Population

1.2 'Other' includes communities such as Champagne, Elsa, Jake's Corner, Johnson's Crossing, Keno City, Stewart Crossing, Swift River & Upper Liard. Increases in Marsh Lake population figures are attributable in part to the changing of postal addressses from Whitehorse to Marsh Lake.
1.4 Migration estimates are based on both migrants into and out of the Yukon, internationally as well as interprovincial movement according to the Child Tax Benefit files.

2. Employment

2.1 All Yukon figures from the Labour Force Survey are three-month moving averages based on 83% coverage.
2.1 Yukon figures are rounded to the nearest hundred; because of this, figures may not sum to totals.
2.3 Territorial general government employment includes employees of all Yukon Government departments, as well as employees of the Yukon Workers' Compensation Health & Safety Board, etc. Territorial Health & Social Services includes employees at Whitehorse General Hospital, Alexander MacDonald Lodge, Children's Receiving Home and Assessment, Detoxification Centre, group homes, Norman D. Macaulay Lodge, Northern Network of Services and the Thomson Centre. Yukon Liquor Corp. and Yukon Development Corp./Yukon Energy Corp. are considered to be business enterprises and therefore employment figures are not included.
2.4 Yukon figures are for all employees, including overtime. Unclassified employees are excluded. As of June 2001, NAICS (North American Industrial Classification System) is used in lieu of the previous SIC (Standard Industrial Classification). Other NAICS categories are available by contacting YBS.
2.5 Yukon total includes some communities not listed. Claimants whose applications are pending are included.
2.6 The number of beneficiaries receiving total income benefits includes other types of benefits than those displayed, but excludes employment insurance claimants receiving employment and support measures benefits.

3. Consumer Prices

3.1 The Consumer Price Index (CPI) measures price changes over time but should not be used to compare costs between provinces and cities.

4. Rental Units

4.1 & 4.2 The Yukon Rental Survey covers all buildings with four or more units. Rentals with less than four units (such as houses, suites and duplexes) are excluded from the survey.

5. Real Estate

5.1 & 5.2 Rounded data may not sum to totals.

6. Construction

6.1 Rounded data may not sum to totals. Permits issued in the communities are totalled on a calendar month.
6.3 Special permits or permits for demolitions may have dollar values of zero. Whitehorse permits are reported for a thirty-day period from the sixteenth of one month to the fifteenth of the following month for which the totals are reported.

7. Resources

7.1 Prices of lead, zinc and copper are London Metal Exchange "cash settlement and reference" prices at month-end. Prices of gold and silver are a.m. fix prices at month-end. Canadian prices are based on the conversion of US prices using the 'noon' exchange rate at month-end by Bank of Canada.
7.4 'Total' includes other fuel sales. Domestic sales are by reporting companies, are exclusive of exports and sales to other reporting companies, and are adjusted for exports and imports by non-reporting companies.
7.4 'Aviation gasoline' includes all gasoline-type fuels for piston-type aircraft engines.

8. Trade

8.1 & 8.2 As of April 2004, retail and wholesale trade data collected collected by Statistics Canada are classified according to the North American Industry Classification System (NAICS 2002). This data is not comparable to the previously used Standard Industrial Classification (SIC 1980). Consequently, retail and wholesale trade estimates have been revised back to January 1991. The current figures should not be compared to previous corresponding sections of this publication.
8.4 Bank rate figures are from the last Wednesday of the month.
8.5 & 8.6 The Monthly Restaurants, Caterers and Taverns Survey (MRCTS) has undergone several important methodological changes commencing with the April 2004 reference month. As a result of these changes, total food services sales for Canada and the provinces and territories have been revised back to January 1998. Users must be aware that historical comparisons of estimates produced by the MRCTS prior to May 2004 reference month should be made only with revised historical data. Please note that kind of business (KOB) details and the number of locations have been suppressed for both the historical and the new series until revisions to the historical data can be processed.

9. Transportation

9.1 Not included in this table are travellers entering the Yukon from another province or territory, persons entering the Yukon by air and persons entering the Yukon by water.
